

# Illicit Drug List

The list below is current at the time of printing this pamphlet. CAMS may update this list from time to time. The most up-to-date list can be found at [www.cams.com.au](http://www.cams.com.au)

1.	Amphetamine
2.	Cannabis*
3.	Cannabis resin
4.	Cocaine
5.	Gammabutyrolactone (GBL)
6.	Gamma-Hydroxybutanoic acid (GHB)
7.	Heroin (diacetylmorphine)
8.	Lysergide (LSD)
9.	Methamphetamine
10.	3,4-Methylenedioxyamphetamine (MDA)
11.	3,4-Methylenedioxymethamphetamine (MDMA)
12.	Opium
13.	Psilocine
14.	Psilocybine
15.	Tetrahydrocannabinol (THC)
16.	Methadone
17.	Morphine
18.	Oxycodone
19.	Fentanyl
20.	Pethidine
21.	Dimethylamphetamine
22.	Benzphetamine
23.	Ephedrine
24.	Methylephedrine
25.	Cathine (D-norpseudoephedrine)

\* in any form, including flowering or fruiting tops, leaves, seeds or stalks, but not including Cannabis resin or Cannabis fibre

## Integrity - In Good Hands

The integrity of motor sport in Australia is in good hands, with CAMS developing, implementing and managing various policies and procedures to protect motor sport from the dangers of:

- ▶ Illicit Drugs
- ▶ Competition Fixing
- ▶ Anti-Doping

## Contact CAMS for integrity matters

All motor sport participants at all levels are encouraged to contact CAMS directly for further information or assistance with any integrity issue.

If you would like to contact CAMS to obtain advice or to provide legitimate information pertaining to any integrity related matter within motor sport, please do so at:

Email: [integrity@cams.com.au](mailto:integrity@cams.com.au)  
Phone: 03 9593 7777  
Fax: 03 9593 7700  
Post: PO Box 147 Caulfield East VIC 3145

## Illicit Drugs in Sport CAMS Safety Testing

CONFEDERATION OF AUSTRALIAN MOTOR SPORT

## Safety Is Everyone's Responsibility

# CAMS Safety Testing

## ► **What is CAMS Safety Testing?**

CAMS Safety Testing is the drug testing program that will detect illicit drugs in CAMS licenced participants. As the name suggests, 'safety' is the main objective and this will be achieved by the exclusion of participants from CAMS permitted meetings if an illicit drug is detected in their sample.

CAMS Safety Testing will be administered by CAMS, with samples collected and analysed by an external service provider. The program has similar principles to police roadside drug testing.

## ► **The Who, What, When, Where, How and Why of Safety Testing**

### **Who can be tested?**

Any CAMS licenced driver, co-driver, entrant, navigator or official (participants).

### **What happens if an illicit drug is detected in my sample?**

You could be excluded from participating in the meeting and may also receive further penalties.

### **What happens if I refuse to undergo CAMS Safety Testing?**

You'll be excluded from participating in the meeting and may also receive further penalties.

### **When and where will CAMS Safety Testing occur?**

All year round, it could be any CAMS permitted meeting.

### **Where can I find the most current list of illicit drugs?**

On the CAMS website: [www.cams.com.au](http://www.cams.com.au)

### **Where can I get more information about CAMS Safety Testing?**

Call or email the CAMS national office 03 9593 7777 or [integrity@cams.com.au](mailto:integrity@cams.com.au)

### **How will Safety Testing be conducted?**

Saliva samples will be collected and 'screened' onsite while you wait.

### **How long does a test take?**

About 15 minutes. CAMS will work with event organisers and participants to keep the impact to preparations as low as possible.

### **Why is CAMS doing this?**

Safety. CAMS aims to provide the safest possible environment for all by excluding participants from meetings if they have an illicit drug detected in their sample.

# Illicit Drugs In Motor Sport

## ► **Don't Risk Your Health And Reputation**

By using illicit drugs, you can seriously impair the way your mind and body function. For motor sport participants, this can have a major impact on your performance and even puts the health and wellbeing of others, including the public at risk. Away from the track, illicit drug use can seriously damage your personal life including work and relationships.

## ► **How Do Illicit Drugs Affect You?**

Similar to being under the influence of alcohol, your skills and decision making ability are impaired by using illicit drugs. For instance, illicit drugs can:

- increase your nervousness and irritability – making it hard to concentrate
- distort your judgement of time and distance
- cause dizziness or blurred vision
- slow down your decision making and response time
- impair your coordination

## ► **What's at risk?**

If you use illicit drugs you are risking:

- your health
- the safety of other participants and the public
- the reputation of you, your car club and CAMS
- your motor sport career aspirations
- your sponsorship deals
- the respect of your peers, family, friends and the motor sport community

## ► **Remember:**

The best way to protect yourself and others from the impact of illicit drug use is to decide not to use them!

## ► **Getting help**

If you think you have a problem with drugs, or know someone who may have a problem with drugs, start talking. Talk to a counsellor, a health professional or someone else you can trust, such as a friend or family member.

For more information about illicit drugs or to get help please contact: 1800 250 015 (free call) or visit [www.australia.gov.au/drugs](http://www.australia.gov.au/drugs)

# How is CAMS protecting our communities from illicit drug use?

Through the Illicit Drugs in Sport (IDiS) program, CAMS in conjunction with the Australian Government, has been educating the motor sport and broader community about the dangers of illicit drugs since 2009.

CAMS continues to show its commitment to reducing the impact of illicit drug use in the community through the IDiS program and the commencement of CAMS Safety Testing. CAMS will continue to educate participants on the dangers of illicit drug use and exclude any competitor or official from participating in CAMS permitted meetings if they are impaired by illicit drugs.

## ► **More information about IDiS**
